1. [ ] Comment. No changes appeared to have occurred at the Oranienburg military post prior to 24 September 1952. [ ]. The occupation of the Leisse Stadt settlement consisted of a rear detail of the 2d Light Arty Brig (US). It appears credible that elements of this detail and the bulk moved to Doeberitz in mid-September 1952 as on 28 September 1952, an unloaded rear shipment of this brigade was still in Doeberitz. [ ]
- A report [ ] in July had already indicated that the occupation of Oranienburg castle would possibly be changed and that the Landratsamt would probably move in. [ ]. Previous reports indicate that the SS Kaserne and the concentration camp were reoccupied by units of the 25th Tank Div this fall. [ ] Judging from the situation observed at other training grounds in East Germany there is a possibility that the units of the division may return from the Temolin troop training grounds during the first half of October.
